

Materials & finishes

The metals MCS works in and the surfaces it finishes them to. Fabricated first, finished after.

METALS

Stainless Steel 304 · grade 304

Stainless Steel 316 · grade 316

Aluminium

Brass

Bronze

Copper

Mild Steel

Zinc

FINISHES

PVD COATING

PVD Gold, Rose Gold PVD, Champagne Gold PVD, Black PVD, Bronze PVD

POWDER COATING

Powder Coating

SURFACE FINISH

Mirror, Hairline, Matte, Bead Blast, Antique / Brushed

PROCESS

CNC Fibre Laser Cutting · CNC V-Grooving · CNC Bending · Welding & Fabrication · Surface Finishing · PVD & Powder Coating

Every piece is cut, V-grooved, folded and welded before it is finished or PVD coated, so colour runs evenly over the joints and no raw sheet edge shows. Thickness from 0.25 mm to 4 mm, set per project.
